

IN101: BICSI Installer 1 Training

ABOUT THIS COURSE

- ❖ 5-day course
- ❖ 35 CECs

COURSE OVERVIEW

Think of this as the first step to a successful career in cabling installation, or a solid introduction to the basics for those who simply seek the knowledge. IN101 is an intensive five-day, 40-hour course designed to provide entry level cabling installers with the background, knowledge and basic skills needed to function effectively on the job.

COURSE HIGHLIGHTS

- Industry orientation
- Codes and standards/BICSI best practices
- Safety
- Professionalism
- Structured premises cabling systems
- Media
- Job site skills

Note: The BICSI Installer 1 exam is not included in the course fee. You must register for the exam separately. Download an exam application at www.bicsi.org/installer1 or contact BICSI.

KNOWLEDGE AND SKILLS

Must be able to distinguish between different colors and possess manual dexterity to complete fine motor tasks.

Hands-on BICSI training is conducted in state-of-the-art facilities, and offers real-world experience.

WHO WILL BENEFIT?

- Individuals with little or no cabling experience
- Anyone looking for an introduction to or wanting to know more about cabling installation
- Individuals pursuing a career in cabling installation
- Anyone planning to take the BICSI Installer 1 exam.

COURSE MATERIALS

Students must bring a print version of the *Information Technology Systems Installation Methods Manual (ITSIMM)* to class. The manual (not included in the course fee) can be ordered at www.bicsi.org/publications. Personal or prescription safety glasses are also recommended.

PREPARATION

Little or no experience is needed to sit for this class. However, BICSI strongly recommends reading the *ITSIMM* before coming to class and/or taking the exam. Order the *ITSIMM* online at www.bicsi.org/publications.
