Products and Solutions for the Electrical Industry

Who We Are

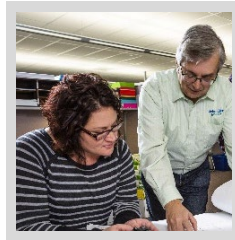

Our History

- Since 1924
- 4th Generation
- 29 locations
- Largest PA Independent

The Foundation

- Core Values
 - Integrity
 - Profitability
 - Accountability
 - Teamwork
- The SYD Way
- Our Culture

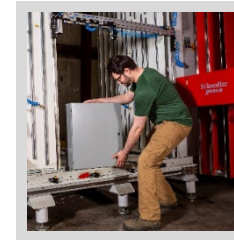

Real Life Experience

- Diversity of ideas and experience
- Collaborative environment
- Ongoing Training and improvement
- Experience is valued

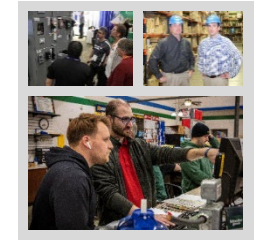

Work Hard. Go Home Happy.

- Work-Life Balance
- Open Door
- Profit Sharing & Benefits
- Best Place to Work in PA

Real Life Solutions

- Tech Specialists in Key Categories
- Customized Programs
- Solutions to YOUR challenges

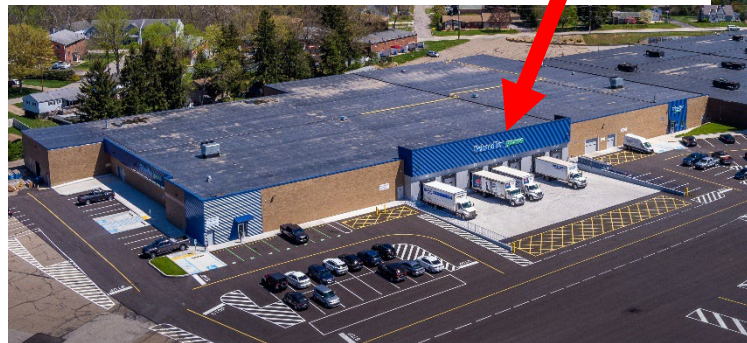

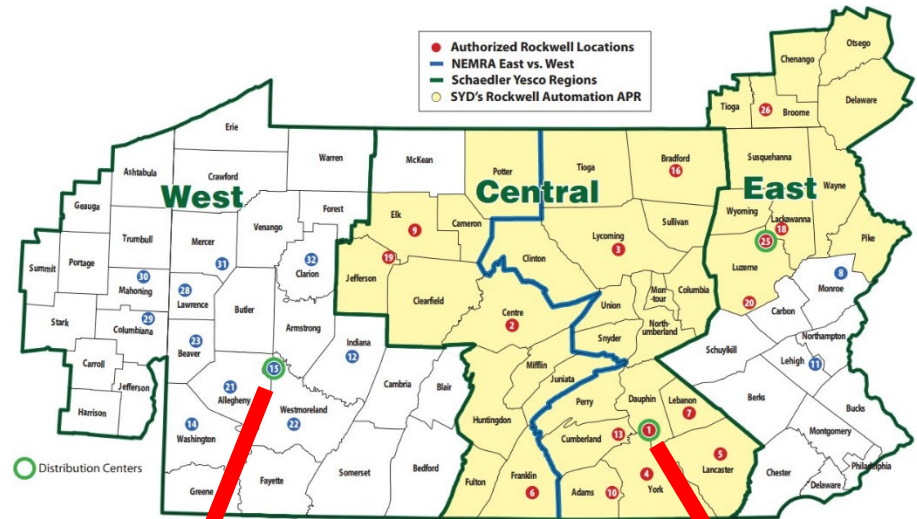

Experience the Difference

- No Red Tape
- Empowered team members
- Can-do Attitude

Who We Are

- 29 Locations can share inventory next day
- WEST territory includes:
 - Pittsburgh NS - 21
 - Lower Burrell - 15
 - Greensburg - 22
 - Meadowlands - 14
 - Indiana - 12
 - New Brighton - 23
 - New Castle - 28
 - Clarion - 32
 - Grove City - 31
 - Columbiana, OH - 29
 - Youngstown, OH - 30

Lower Burrell, RDC

Harrisburg, CDC

Labor Concerns (Construction)?

- Projected growth demand for Electricians between 2020 – 2030 is 9.1%
- Projected growth demand for all other occupations between 2020 – 2030 is 7.7%
- Electrical Construction could be the hardest hit because it already employs the highest number of electricians
- Expected growth rate of electrical construction over the same time period is 9.9%

Labor Cost Concerns (Construction)?

More than 711,000 people currently work in the electrical industry, or they should be working. Instead, they often spend a lot of time standing around waiting for materials, equipment, colleagues, and even customers to show up so they can do their jobs. Exactly how much time?

Sometimes more than half of an electrician's workday is unproductive, according to contractors and consultants who have analyzed the problem of lost labor hours.

EC&M - 2023

Labor Cost Concerns (Construction)?

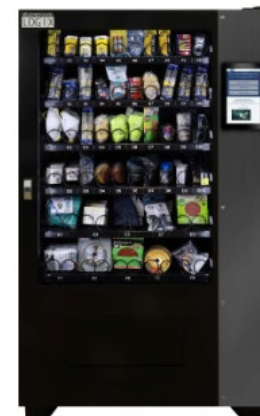

Labor will likely be your biggest expense (as a percentage of revenue) for every job—usually accounting for at least 25-50% of total project costs. Since labor accounts for such a large portion of job costs, your biggest opportunity to improve profitability is found in **labor efficiency**.

Labor Concerns (Industrial)?

- The manufacturing skills gap in the U.S. could result in 2.1 million unfilled jobs by 2030. The cost of those missing jobs could potentially total \$1 trillion in 2030 alone.
- **A long-term challenge:** 77% of manufacturers say they will have ongoing difficulties in attracting and retaining workers in 2021 and beyond.

(The Manufacturing Institute)

Complete solution for your project needs

- Product category specialists
 - Gear & power distribution
 - Motor controls
 - Security, Fire, Surveillance & Call Centers
 - Lighting design and controls
 - Data networking
 - Wire & cable
 - Enclosures & packaged goods
 - Commodities
- Valuable Services
 - Project management
 - Wire services
 - Material management
 - Lighting design
 - Gear design
 - Residential project support

Project Management Services

- Complete project coordination to insure proper handling of your order
- Real time project tracking for proper onsite labor force planning and coordination
- Project coordination of one or multiple releases and change orders
- Customized invoicing to accommodate your project schedule and conditions
- Detailed documentation to meet project General Requirements
- Handling of all claims and credits for a cost saving completion to your project
- Complete close-out documentation for finalization of your project

Wire Services

- Wire planning
- Full wire offering
- Paralleling & Color Coding
- Pulling Head Installation
- Tools and accessories
- Standard reels
- Roll Jacks
- Specialty reels
- Local Cut Service

NEW! ProReel Plus

- Easy handling and quicker pulls with less labor!

- Designed to keep your team safe

- More efficient handling and pulls means greater productivity

- Can be used with any brand of wire, single or paralleled

- We stock a wide selection of the wire you need most

Material Management Services

Site Inventory Management Solutions (SIMS)

- Available since 2001
- A time and labor-saving material management service
- Custom-designed to your unique needs
- Over 975 Projects Completed
- Over 170 Customer Partners

First SIMS Project – Cabela's, Hamburg, Pa., 2001

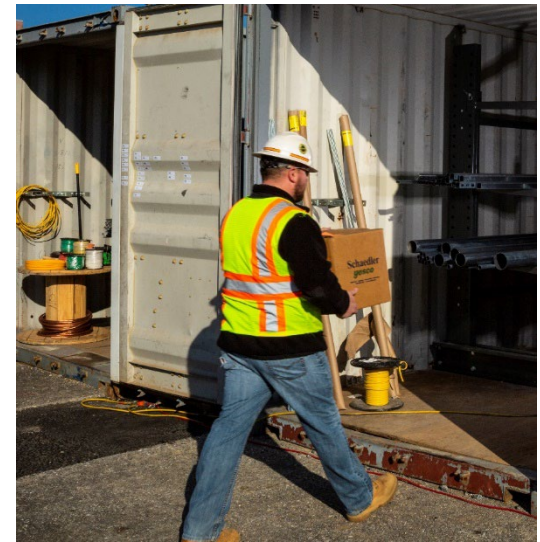

Full Service

Field Reps help maintain inventory in the trailer

Product is delivered directly to the jobsite trailer

Field Reps help receive material

Why it works

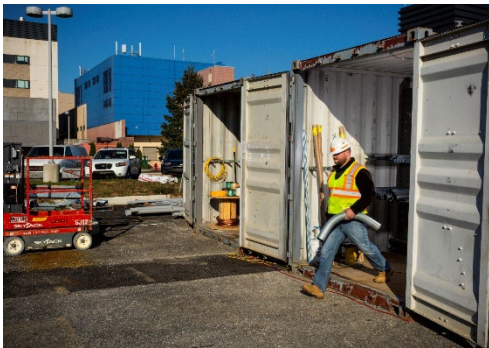

Feature	Benefit
Save time & labor	Save 5% - 12%+
Increase jobsite productivity	Eliminate receiving activities
Plan BOM with project specs	Protect pricing Reduce supply chain issues Reduce expected costs
Project phasing	Reduce excess material and avoid damage
Material management	Regular reports help you manage material use & open orders
Dedicated project team	Knows your project preferences
Reduce paperwork	Fewer POs and invoices
Actionable data	Make better decisions with real project data
Customize solutions	Your project, your specs

Towable Trailers

Available in 16ft, 20ft and 22ft, rated at 7k# or 10k#

Sea-Cans

Available in 20ft and 40ft, with or without shelving

Conduit Storage Containers

Outdoor Conduit Storage Units

Productivity Assets

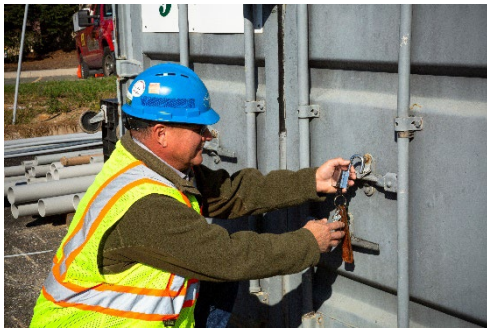

Custom Solutions

South Carolina

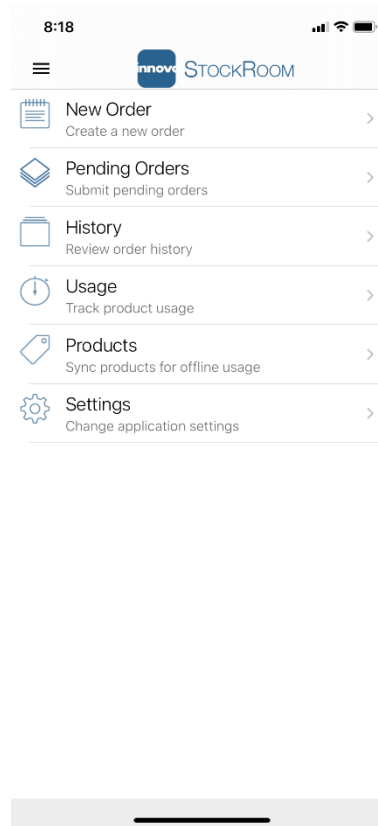

Security Options

Staging & Storage Services

- Simple Storage
 - We store the skids as they come in from manufacturers and ship them to your jobsite when you are ready for them.
- Staging & Storage
 - We order your project in and store by fixture type, allowing you to release only the quantities and types you want throughout multiple stages of the project.
- Custom Storage
 - Our standard Staging & Storage service with added features specific to your job.

Lighting Carts

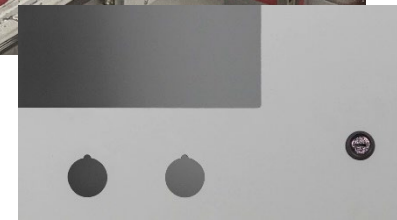

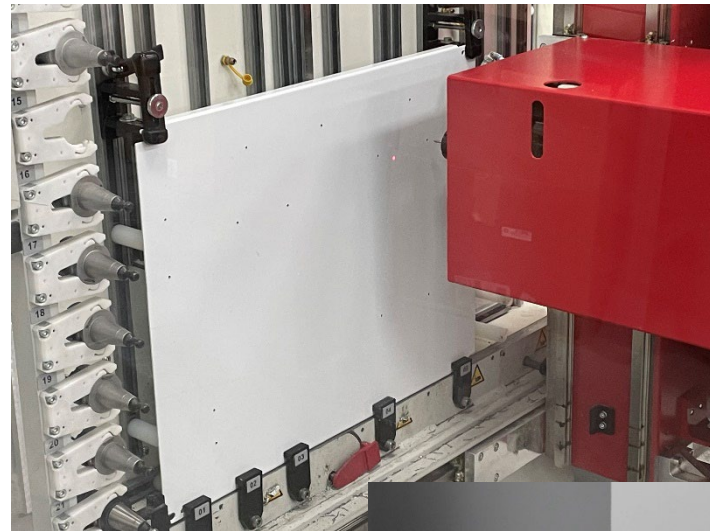

Kitting Services

- Package your components for specific areas of your project
 - Floor
 - Room
 - Other
- Each kit is labeled with the location for easy dissemination
- Great time-saver for both commercial and residential projects

Modification Services

- Custom enclosures
- Fixture modifications (whips, cords, and cord ends)
- Customer requests
