

ProReel Plus Wire Reel System

Moving, setting up, and paying off feeder cable reels inside buildings or structures can be extremely challenging, often requiring a tremendous amount of labor, equipment, tools, physical effort, and time. The ProReel Plus from Schaedler Yesco offers a variety of benefits.

What's the PLUS?

ProReel Plus allows for easy handling and quicker pulls with less labor! Whether you choose our single-wire reel or our multi-wire unit, ProReel Plus is easy to maneuver and position on-site with super smooth pulls.

From loading to pulling, ProReel Plus is designed to keep your team safe. Integrated fork pockets make the unit easy to load onto trucks, while locking pins in the shaft keep products stable during transport. Onsite, ergonomically designed features and cable pulls with significantly less manual exertion mean quicker – and safer – installation.

More efficient handling and pulls means greater productivity. ProReel Plus allows you to save time and money and that means you can be more competitive on your bids.

Schaedler Yesco's ProReel Plus can be used with any brand of wire, single or paralleled. You aren't limited by the wire you need.

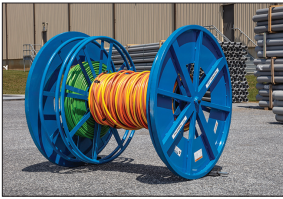

We stock a wide selection of the wire you need most. If it's in stock, it's quick ship.

Schaedler Yesco Distribution is the largest independently owned, full-service electrical distributor in the markets we serve. But we're more than a distributor of products. We're a business partner focused on services and processes that help make you more competitive. Whether new construction, renovation, or design & build, our goal is to minimize your challenges and maximize your profitability.

Real life experience. Real life solutions.

 This will allow for a 470' 4 leg 500mcm
 parallel with a 250 ground

Ordering & Handling Information:

- Reels weigh roughly 900 lbs. empty and are rated for 5000 lbs. when loaded
- Depending on the size of your order and the number of reels, your order may require special delivery
- Standard turnaround time from order placement to delivery is (3) business days; large orders or multiple reel orders may require additional time
- Stacked pulls / multiple pulls on the same reel are available
- Pulling heads are available at \$25 each
- All reels include a self-spinning ground; a separate ground reel is not necessary

Handling / Jobsite Information:

- Can be used for indoor or outdoor pulls where conditions are flat, dry and the reel can be easily rolled
- Reels cannot be unloaded using lift gates on Schaedler Yesco trucks; be sure to have a forklift, Pettibone, or a loading dock at truck height to unload at your delivery location
- Caster-style reels have forklift slots
- Caster-style reels (PRP-4-1-CASTER & PRP-N-4-1-CASTER) include a Pull Break Clamp that will stop the reel from moving during a pull
- The narrow caster reel (PRP-N-4-1-CASTER) also comes with chocks

Pricing:

- All reels are rented for \$150 for (3) days; delivery day, pull day, & pick-up day
- Additional days will be charged at \$150 per day
- Reels not returned/picked up within the 3-day rental will be charged \$150 per day
- Misuse of reels causing damage may result in additional fees
