

Custom Panels & Switchboards

The reliability of Siemens product with the speed of Schaedler Yesco!

What PANELS are available for Quick Ship?

We offer the P Series for quick ship. The P Series lighting panel features installer-favorite Fas-Latch trim; the jacking screw system, that permits adjustments after wiring has been installed; an exclusive split neutral, and more. Many panelboards have the capability of mixing and matching breakers of different sizes and ratings – or changing from main lug to main breaker, or adding subfeed breakers without changing the box size.

We offer these products for quick ship:

- P1 panel board — 250-400 amp
- P3 panel board— 400-800 amp (Coming Soon)
- P5 panel board— 1200 amp

What SWITCHBOARDS are available for Quick Ship?

Every aspect of Siemens switchboard design has been aimed at improving layout convenience, reducing installation costs and minimizing the impact and cost of system changes. Regardless of your application or requirements, one of Siemens switchboard products will meet your needs.

We offer these products for quick ship:

- Main Breaker Switchboard—bottom feed—2000 amp
- Main Breaker Switchboard—top feed—2000 amp
- Main Breaker Switchboard—bottom feed—4000 amp (Coming Soon)
- Main Breaker Switchboard—top feed—4000 amp (Coming Soon)
- Other products may be available upon request

How much lead time is needed to build a panel or switchboard?

It depends on your needs and budget. We offer different lead times for different situations and budgets to meet your project goals.

How can you do it so fast?

We stock the parts and pieces unassembled. That means you can simply let us know which panel and breakers you need and our certified modification team will build your custom board in days, not weeks.

How do I order?

Contact your sales rep or one of our Gear Specialists to get your order started.
