

## Stratix 5200 Out-of-Box Training

Join us for training on the Stratix 5200 Fully Managed Switch!

The Stratix® 5200 is the next generation fully managed ethernet switch and supports the operation of a secure network infrastructure for a wide range of industrial applications. Join us to experience a hands-on-lab, with training credit, that will walk you through Power-up, configuration, and advanced features. Work with the new Web Based User Interface as you experience the AOP, Faceplates and configurations.

During this workshop, you will get hands-on experience with the products, engage with experts, and learn about the Stratix portfolio and value of a Rockwell Automation networking solution.

### What are some of the elements this seminar will cover?

- Product Registration
- Discuss Express Setup
- Explore the Stratix 5200 WebUI
- Assign Smartports and VLANs to ports
- Configure the switch as a DHCP Server and define DHCP Persistence
- Stratix 5200 Troubleshooting Tools
- Stratix 5200 Logs
- Backup and Restore Stratix 5200 Configs
- Flash Firmware using WebUI

### Select the level at which you will participate:
