

Government Services

As a governmental entity, your procurement process can be different than other organizations. We understand those differences and we're ready to support all your electrical, lighting, and datacomm needs.

We don't just sell product. We stay informed about programs and contracts used by state, local and education buyers so we can help you navigate issues, determine your best purchasing options, and comply with regulations.

- A dependable and trusted Pennsylvania-based company
- Participants in local and state procurement programs
- Skilled in contract compliance
- Access to government facilities & jobsites
- DBE Teaming expertise
- Expertise in datacomm, lighting, and energy savings
- Application and safety training
- Easy MRO ordering in person, by phone, or online
- 24/7/365 Emergency support

Real life experience. Real life solutions.
