

We know lighting.

We also know that good lighting doesn't have to be expensive, just correctly planned. At Schaedler Yesco, we don't just sell products, we sell solutions.

Renting vs. Ownership

The rental market has been strong for the last decade and isn't slowing down! What started as an alternative during an ownership downturn has turned into a trend for younger households due to delayed marriage, student debt, and simply a desire for flexibility.

High style, low stress

Attracting, and keeping, good renters is important in property management. Today's rentals need to be up-to-date and include attractive lighting, pre-wired datacomm solutions, a safe environment, and smart home controls. Whether you're renovating a single unit or an entire building, our team can help make the process easier. From project planning to product selection to a custom delivery schedule, we'll help ease some of the stress.

More than lighting

In addition to helping with reno projects, we're also here for day-to-day needs. We understand that time is money and that you need quick, easy solutions to turn units fast. Whether you need wire and devices or replacement lamps, smoke detectors, and exterior lighting, your maintenance needs are covered.

Schedule an appointment at our showroom and let us tell you more about how we can help you upsell lighting options. Call 717-334-0106 ext. 2530.

Real life experience. Real life solutions.
