MC Glide Lite™ Features:

Easier pulls. U.S. Patent Pending armor profile is designed to reduce fatigue on your workers when pulling cable through metal studs and ceilings.

No need for new tools. Works with the same tools, fittings and supports as traditional MC Cables.

Time savings. From the first pull, installing MC Glide Lite™ will be smoother, faster and easier to work with.

Minimize damage to studs. Less resistance means less opportunity for cable hang ups, that may knock down studs.

We redesigned the armor profile of MC Glide Lite™, with you in mind.

The aluminum armor design will glide with ease through metal studs and ceilings, without sacrificing flexibility or strength.
