Made by anyone. Repaired by us.

A single source for repairs

Meet your repair needs quickly and conveniently. You'll find quality in every step of our repair process, whether the item is repaired at our Rockwell Automation repair facilities, or through our strategic suppliers.

As the original equipment manufacturer of Allen-Bradley® products and Reliance Electric™ drives, we are your single source for service, providing repair on thousands of types and brands of electrical, electronic, mechanical, servo and robotic products.

BENEFITS

- **REPAIR SAVINGS:** Decrease service costs by increasing the mean time between failure (MTBF) by using OEM-specified components (when available)
- **FASTER RECOVERY:** Minimize downtime with our equipment exchange program
- **EXTEND PRODUCT LIFESPAN:** Repair obsolete or hard to find replacement products for increased dependability
- **DETAILED TESTING:** Trend analysis on parts can predict component failures and enhance product reliability
- **REPAIR AVOIDANCE:** Component level cleaning disinfects the unit, improves functionality and mean time between repairs

FEATURES

- Facilities with ISO 9001 and ISO 14001 certifications
- One-year warranty on complete unit, not just repaired components
- Emergency repair and support with our 24x7 support capability
- Environmental responsibility that complies with worldwide environmental standards

ACTIONS TAKEN TO DIAGNOSE PROBLEMS:

- Your equipment is thoroughly cleaned to remove all contamination
- Diagnostic tests are used to locate any inoperative components
- Circuit analysis isolates marginal components
- Aged as well as marginal components are replaced to support long-term performance of the unit
- State-of-the-art equipment verifies total circuit board quality
- Circuit boards are coded and tagged
- Handling, packaging and shipping are performed in a static-free environment
