

We've got the Size & Color You Need!

Schaedler Yesco is proud to be your local Southwire distributor

Southwire's SIM Technology® cable products are helping speed up installation time, creating a safer work environment and changing the process of how intermediate and feeder size cables are pulled into conduit.

Available in cuts, reels, SIMpull Barrel™ Cable Drums, and convenient SIMpull® CoilPAK™ wire payoff. See your Schaedler Yesco sales rep for specific availability.

Southwire's SIMpull® NoLube® Cables

don't require the use of pulling lubricant when pulled into conduit. Southwire guarantees that SIMpull cable will pull into conduit the same way that standard lubed cable will and offers these additional benefits:

- SIM Technology gives you the ability to pull short lengths by hand
- A variety of colors in copper and aluminum as special order
- AlumaFlex® brand conductors made with AAA-8000 series aluminum alloy
- Sequential footage markers in sizes 1/0 and larger
- Reduces horse-collaring that causes nylon tears
- Rated sunlight resistant in sizes 2AWG and larger
