Yes. You can link multiple accounts through the Settings tab. Once there, you should see an Account Management section on the left navigation panel which allows you to link multiple accounts by providing the necessary credentials to validate that you own the accounts. If you do not see this option, you will need to speak to your administrator to link and assign the accounts to you. You can also assemble several accounts together and assign them to a group for easier management. Groups can be considered as a branch of accounts so that you can easily view all the accounts for a specific branch. Groups can be customized in the Settings tab as well.

There's also an option in the Settings tab that can automatically mark bills as closed once they are paid in full so you don't have to manually close them.
